**Program Purpose:** Social justice is the view that everyone deserves equal rights and opportunities. This program will inform participants of the application of social justice to the right to good health. The purpose of this daylong conference is to address the potential for all to attain their highest level of health. Participants will recognize the connection between social justice and public health nursing practice specifically as it relates to ethics, health disparities, and environmental issues.

**Target Audience:** The program content is intended to inform healthcare providers of various settings, disciplines, and contexts.
